Equipment inspection offer

Periodic inspections of personal protective equipment against falls from a height

PETZL technical partner

We carry out periodic inspections (periodic examinations) of personal protective equipment against falls from a height, that is work-at-height and climbing equipment. The inspection is carried out by an experienced competent inspector, in line with EN 365 and the manufacturers' instructions. We enter the result in the equipment's inspection record.

WHERE	in Warsaw, at ul. Kosmatki 12. For larger orders you can ask about an inspection at your site
HOW LONG	usually 1 to 3 days, and with a small amount of equipment even the same day
HOW OFTEN	at least once every 12 months

How it works

1. **Agree a date.** Email sklep@wysokosciowka.org or call +48 666-202-702. Tell us the type and number of items.
2. **Prepare the equipment.** The equipment must be clean and dry, with the manufacturer's markings legible. Separate the items, for example lanyards from harnesses and karabiners from lanyards.
3. **Send or bring the equipment.** To: WYSOKOŚCIÓWKA.org, ul. Kosmatki 12, 03-982 Warszawa, Poland. Include the inspection records if you have them.
4. **Inspection.** Simple, small orders usually by the next day, larger ones in 2 days, very large ones usually in 3 days.
5. **Collection.** We will let you know when you can collect your equipment. The inspection record shows the date and result of the inspection and the inspector's notes.

Good to know

- We add a surcharge of 50% of the inspection price only if the equipment is really heavily soiled or clipped together into sets so that the inspection takes much longer.
- If the inspection record is missing or filled in incorrectly, we start a new one for the fee in the price list.
- Send your equipment by courier to our door. We may not collect parcels that have to be picked up from a post office or a collection point.
- Handing over equipment for inspection means you accept the terms.
