Warsaw, 18 November 2026

Training offer: HeliDog

helicopter training for dog handlers

PETZL technical partner

Has your dog already hung on the ropes with you? Have you practised abseiling together and reaching difficult terrain on a Tyrolean rigged at height? Working with an emergency services helicopter looks like the next step. How to behave around the aircraft, where the danger zones are, how to approach and fly safely with your dog in a helicopter: these are some of the topics covered on the course.

Who is it for

For participants who have completed our rope course with a dog. Other experience needs to be discussed with us first.

Programme

Getting the dog used to the helicopter, boarding, disembarking, flying with the dog and work after landing. The course does not include rope techniques.
