Warsaw, 18 November 2026

Training offer: HeliLine

helicopter rope techniques

PETZL technical partner

Training in the use of helicopters and rope techniques in rescue operations, based on international experience. It is intended for officers of state public safety services and for rescuers and others directly involved in rescue systems that use helicopters in real search and rescue operations.

Course outline
3 days of helicopter training. Less experienced participants also take 2 days of preparation in our hall in Warsaw. The preparation is included in the price.
